The following is an examiner's statement of reasons for allowance: The prior art of record shows the term "high modulus layer of asphalt pavement" is an art-recognized term. (See Corte, Nunn & Smith and, US 6830408). The SHRP (Superpave) program sets forth a method for selecting the asphalt binder of a paving composition comprising measuring the complex shear modulus (G^*) at the higher performance grade temperature (52 C and higher) and requiring a creep stiffness of no more than 300 MPa at 10 C higher than the lower performance temperature. The instant invention provides convincing evidence that formulation of asphalt paving compositions for using a protocol wherein G^* is measured at no more than 30 C provides better and more consistent results for high modulus layers of asphalt pavement.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David M. Brunsman whose telephone number is 571-272-1365. The examiner can normally be reached on M, W, F, Sa; 6:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on 571-272-1362. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
